

# CONCEPT & VISION

## Interior Selections

## VISION BOARD

YOUR HOME DESIGNS

To discuss goals and confirm a design brief, we start your journey with a meeting between you and the Interior Designer.

Next, our Designer will head to your site to view the scope of works and take measurements. We also provide general design guidance during the appointment.

We'll then put together a curated colour scheme & mood board to identify the overall style & direction for the project.

You'll then be invited to our office space, where we present the selections in detail for the proposed design space. We will finalise the concept during this meeting!
