

SELECTIONS SCHEDULE

Interior Selections

We begin with creating a physical sample board of all proposed selections and present it to you either on site or in our office space!

Next, we complete extensive research for all proposed materials to be used through the concept design i.e. flooring options, skirting, tiles etc.

We'll provide you with a fully detailed selections schedule, suitable for construction. This can include; pc items, tapware, fixtures, fittings, flooring, tiles, window finishes etc.

After the initial selections are complete, we attend 2 design appointments with you (kitchen joinery and appliance companies).

We update the above schedule to be suitable for construction!

To conclude we set up a presentation to run through all the selections in detail.
