SELECTIONS SCHEDULE

Interior Selections

- We begin with creating a physical sample board of all proposed selections and present it to you either on site or in our office space!
- Next, we complete extensive research for all proposed materials to be used through the concept design i.e. flooring options, skirting, tiles etc.
- We'll provide you with a fully detailed selections schedule, suitable for construction. This can include; pc items, tapware, fixtures, fittings, flooring, tiles, window finishes etc.
- After the initial selections are complete, we attend 2 design appointments with you (kitchen joinery and appliance companies).
- We update the above schedule to be suitable for construction!
- To conclude we set up a presentation to run through all the selections in detail.
